MONTREAL, Aug. 22, 2019 (GLOBE NEWSWIRE) -- Tamino Minerals, Inc., a mineral exploration and development company, (“Tamino” or the “Company”) (OTC Markets: TINO), www.taminominerals.ca Mr. Pedro Villagran-Garcia, President & CEO, announces that for compliance purposes the Company has disclosed that it has issued 370,585,278 of which 220,774,117 are restricted and 149,811,161 are deemed free trading.

The company is planning to raise Capital. The net proceeds of the offering will be used to fund exploration and advance work of the company’s Sonora projects and for working capital. Finders' fees consisting of cash and warrants may be payable on a portion of the private placement financing.

The company is amid completing an acquisition. Mr. Villagran-Garcia has stated that: “Tamino’s top priority now becomes the commissioning of a high-quality NI 43-101 report. Its purpose is to disclose all pertinent information about Tamino’s mining properties and rights in a manner that is accepted in the industry and by regulators. The report will also set forth a path to commercialization of these assets. Crucially, the NI 43-101 report will enable us to further explore utilizing modern exploration methods. The property was a past gold producer, old workings are found in the property which increase the possibility to succeed as our ability to encounter solid underground evidence of precious metals

increases.”

Our objective is to locate a multimillion ounce of Gold deposit. The State of Sonora is known to host several of them. We believe that we have the necessary expertise within our team of Professionals to find a Multimillion Ounce Deposit. Our Projects could all together generate at least reserves of 4,000,000 million ounces of Gold, that with an 8-year mine life could equate to produce monthly 42,000 Ounces of Gold. An amount of 42,000 Ounces of Au equates to \$65 Million USD monthly revenue. We plan to have assets in Canada, Brazil, Turkey and Mexico within the next two to four years.

With an eye on the future, will also continue gathering additional rights in other locations, as circumstances permit, by expanding our horizons to Central Sonora too. It is my goal to leverage decades-long experience in this industry and to harness emerging industry trends. We are only interested in a top quality, progressive operation, generating a positive impact for shareholders as well as in the local communities in which we will operate.

TAMINO MINERALS, INC.

The Company is exploring for gold and other mineral deposits within a prolific Gold producing State, Sonora.
