MONTREAL, Sept. 12, 2019 (GLOBE NEWSWIRE) -- *Tamino Minerals, Inc.* ("*Tamino*" or the "*Company*") (OTC Markets: *TINO*) Mr. Pedro Villagran-Garcia, President & CEO, is pleased to announce that the company has arranged a staged non-brokered private placement of up to 15.0 million shares at a price that remains to be specified because it is currently under negotiation.

The company is in the midst of negotiating a financing with a group of shareholders that are currently interested in exploring our two exploration targets. As we have mentioned before our funding target is of \$3.2 million USD.

The proceeds of the offering will be used to fund exploration of the company's Sonora projects and for working capital.

The company is not planning to complete a REVERSE SPLIT at this moment and is not in the company's plans to do this. NO DILUTION is guaranteed as our latest DTCC Share Position Report shows that the company has 149,811,161 common shares in the float. Just clarifying that this number is the actual Float. We have made it clear that OTC Disclosure Statements are almost finished in order to remove Stop Sign, and our audience has clearly recognized this, as it has been expressed in various Social Media and Discussion Boards, as we just discuss this important matter with our Securities Lawyers.

We are currently negotiating share price with the investors; we are waiting to see an

increase on this so that we can close this financing shortly.

New Website Statistics

Our website has had a tremendous effect on our company's efforts to attract investors. We sincerely appreciate your feedback on this matter. Our Analytical Tools have seen a substantial increase on number related to people visiting our website. Social Media impressions have substantially increased to very high levels.

These stats are a good indicator which makes it easy to predict that price per share will see a substantial increase, as we make progress with our exploration programs and expectations are met as we have a greater audience, clearly depictive of successful funding in the days to come as gold is holding steady to its gains consolidating it as a safe haven.

Federal Investigation

The company continues to cooperate and motivate our lawyers to provide additional information on the ongoing probe as announced on our August 27, 2019 Press Release.

The financing is subject to regulatory approval, including payment of any finder's fees.
